

## Vienna Streams

One of the many wonderful features about the Town of Vienna is our local streams and parks. Many residents relish walking along the stream valleys, enjoying nature and the many animals that live in these areas.

Vienna is part of the Potomac River watershed and the larger Chesapeake Bay Watershed. Rain that falls on the northern and eastern side of Vienna enters Piney Branch or Wolftrap Creek which flow into Difficult Run which drains into the Potomac. Rain that falls on the southwestern side of Vienna enters Bear Branch or Hunters Branch which flow into Accotink Creek which also drains into the Potomac River.

### Visit Your Local Stream

Most of our streams are located in our [local parks](#). Visit your local park and enjoy your neighborhood stream.

Larger maps showing the stream locations and how to access the streams by the bike trails or by car are available. Check out the [bike trail map](#) or the [watersheds map](#).

## **Wildlife in our Local Streams**

What sort of fish live in our local streams? Check out the extensive list on the Fairfax County site [http://www.fairfaxcounty.gov/dpwes/stormwater/fish/fishes\\_of\\_fx.htm](http://www.fairfaxcounty.gov/dpwes/stormwater/fish/fishes_of_fx.htm).

Visit one of the County's nature centers to learn more about our wildlife or attend an interesting program (such as the flying squirrels!)
